

digital signature redefined

Welcome to the future of document signing with SigNEX – your all-in-one platform for secure, efficient, and legally binding digital signatures. Revolutionize the way you handle documents by embracing cutting-edge technology that ensures authenticity, integrity, and simplicity in every signature.

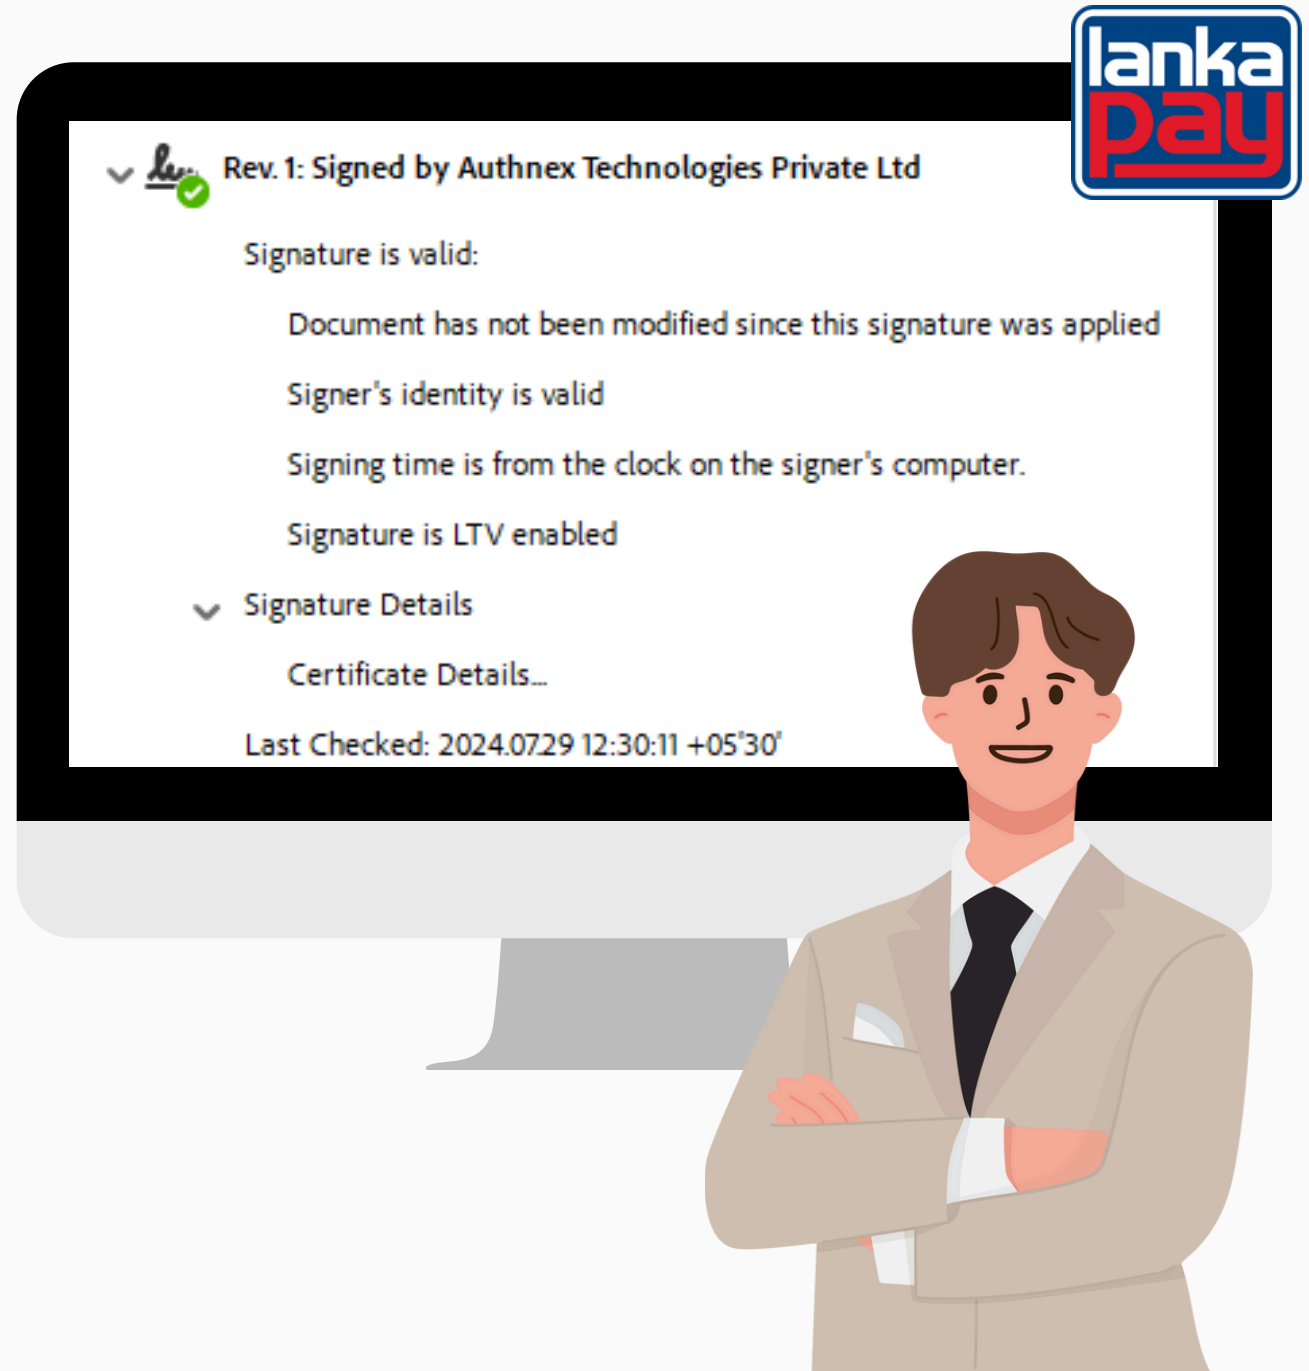

SigNEX employs top-tier mobile security measures to safeguard your data through encryption and secure authentication. Say goodbye to conventional paper as SigNEX allows you to easily sign and manage your documents on the go. Experience true digitalization with secure and efficient document management with SigNEX – where security meets simplicity.

Qualified Certificate

This certificate will be issued explicitly to individual signer. As these are high assurance certificates, they shall be issued to individuals only on their personal (physical) appearance before the Certifying Authorities.

Integration with LankaPay, a trusted Certificate Service Provider (CSP) in Sri Lanka, ensuring secure digital certificate management and enhancing trust and compliance for digital transactions and document signing within Sri Lanka's regulatory framework.

We Know That...!

Boring old
Systems

All the manual
processes

Data security
concerns

Ample time
wasted

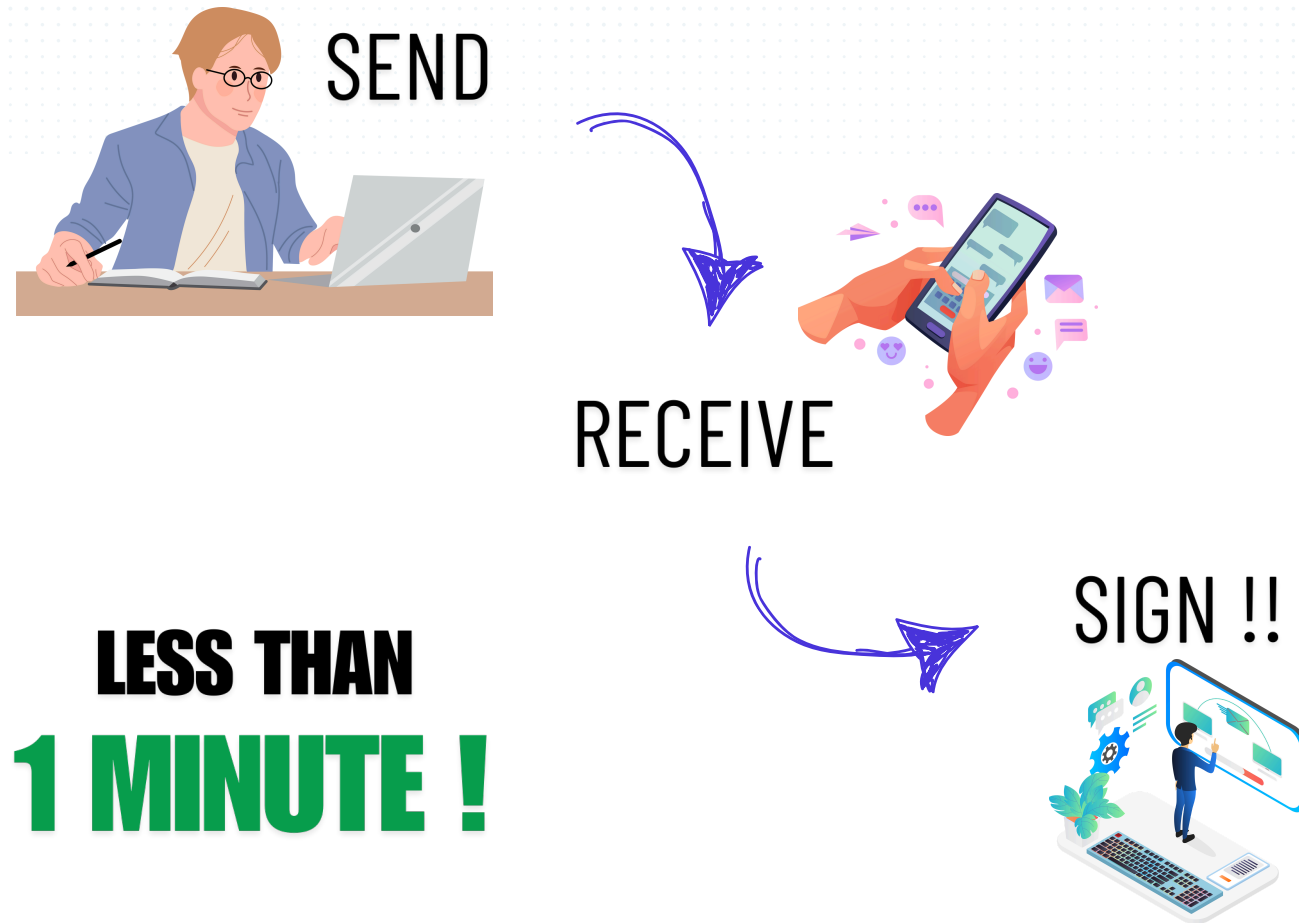

“And **100** more reasons
Have made you more and more wanting

Document Digitalization

Get documents approved before tea break !

Mergers

Contracts

NDAs

Mobile Integration

Sign anytime, anywhere, with certificates delivered directly to smartphones.

Enhanced Security

- Biometric protection ensures only authorized users can sign, maintaining high security throughout the process.

Security

- Digital signatures provide a high level of security with qualified Class 3 certificates, biometric authentication, and Trusted Execution Environment (TEE) protection.

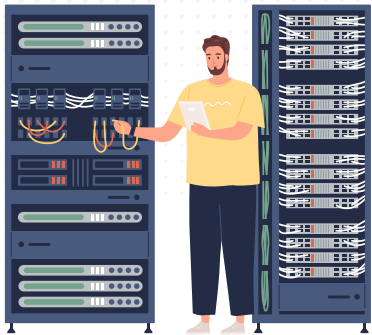

Convenience

- Sign documents anytime, anywhere, using smartphones, eliminating the need for physical presence.

Best Features

An eSignature solution has to offer

01

Local Deployment

It means you get to keep all your data on own servers, giving total control over information.

02

Customizable Skins

You can match it to your brand's colors and style, making sure everything looks just right.

03

Personalized Digital Certificates

Certificates are personalized to your expectations, enhancing trust and authenticity to your documents.

04

Flexible Workflows

Create workflows with options for sequential, parallel, or any order signing, customizable to business needs.

05

Comprehensive Document Handling

Add main documents, supporting documents, CC recipients, and approval persons for clear and efficient document management.

06

Audit Trail

Transparent tracking of document activities for compliance and legal assurance.

07

Efficiency

Eliminate the need for physical signatures, speeding up document signing and approval processes.

08

Cost Savings

Reduce the costs associated with paper, printing, and physical storage.

Let us help you to achieve
True digitalization....

- With **maximum** data **security**
- **Customizable** interfaces & **Personalized** certificates
- The ability to **locally deploy**
- Ample **integration** options
- And with a **highly user friendly** solution
